

COMBI

Item Number 3004146

The COMBI condensate pump is designed for systems from 6.000 BTU/h (1.75kW) up to 120.000 BTU/h (35kW). The digital water sensor, the universal voltage range and the individually configurable flow rate are features that help make the COMBI the most powerful and quietest air conditioning condensate pump on the market today. The variable range of applications allows the trade as well as the installer to cover almost all needs with only one pump.

- Universal use due to wide range of applications
- Guarantee period starts only after commissioning (readable via USB)
- 42 liters pumping capacity per hour
- 20 meters delivery head
- <19 dB noise level
- No float problems thanks to digital sensor
- Water sensor can be used horizontally or vertically
- Control of the pumping capacity according to requirements
- Spare parts available
